

# Red Flag Conditions For Friday

November 14, 2024  
4:53 PM

## Minimum Relative Humidity Friday

### OVERVIEW

- Critical fire weather conditions expected across southern New Hampshire on Friday.

#### TIMING

- Friday, 7 AM to 6 PM

#### HAZARDS & IMPACTS

- North to northwesterly wind gusts 20-30 mph.
- Very dry conditions with RH values between 15-25% south of the mountains combined with these gusty winds may lead to rapid fire spread.
- A [Red Flag Warning](#) has been issued for Southern New Hampshire.

#### ADDITIONAL INFORMATION

- Still dry and breezy, but slightly higher RH values on Saturday.
- Additional Information can be found at our [Fire Weather Briefing Page](#).

#### NEXT BRIEFING

- None
